SHARON'S CHANCES.

A year ago no one could have made us believe that the people of this State could ever be induced to reelect Mr. Sharon to the United States Senate. We thought that his utter unfitness for the high and dignified office, his contemptuous treatment of his constituents, and his non-residence in this State were unanswerable arguments against him. We did not believe that any argument could be advanced that would satisfy reasonable men to set aside these great leading facts. We could see no reason for the re-election of Mr. Sharon, except on a solid gold proposition, and we imagined that men would be backward about declaring in his favor upon that showing. We begin to see our mistake. We find a great many men with whom these things go for nothing. They are finding grounds upon which they can satisfy their conscience in supporting Mr. Sharon Some claim that he is a resident of Nevada, because he does not vote in California. Others say that Sharon was justified in staying at home during his last term, but nobody says that he will make a good Senator if he is re-elected. There was not much to recommend him the first time, and we think there is much to be said against him for a re-election.

CRUEL WASTE.

A great many thousand fish are kil-led every year by the ranchers and stockmen on the Humboldt. That river abounds in excellent trout (salvilinas clarkii). These fish run in the aloughs and ditches used in irrigating, and when the water is shut off at the head tons of them perish. The outlet from the river into these places should be covered by screens. The brush dams found in several places are also ies to the finny family. They prevent their reaching their spawning grounds. The people of Eastern Nev-ada can ill, afford to destroy such a source of profit and pleasure as the

Truth About the Trotting Week Springfield.

From the Springfield Republican. There are evils and drawbacks doubtless, in the great gathering of meeting: but trotting circuits, like camp meetings, are to be judged in their broad relations to the community. It is a better thing to bring men together than to keep them spart, and stirring up a community with a common excitement in the long run purifies it. For the average man and ment in the long ru the average mind, the level of life has too little color and too much rou-tine. An event, if it is only the mis-named "event" of the turf, is worth having for its own sake, and still more if it is linked and twined with demands which mark a healthy pleasure in a healthy enjoyment.

A Sensible Idea.

Those who attend church services metimes suffer annoyance from a hymn by reason of the imperfect enunciation of the clergyman. In the First Methodist Episcopal Church in New Haven, the numbers of the hymns to be sung afe posted in neat gilt figures on one of the central pil-lars of the organ front. The present pastor of that church is a model in distinctness of utterance, but if any auditor, from a defective sense of hearing or other cause, should fail to understand the number, he has only to glance at the figures on the organ.

POPULAR DELUSIONS.

The bottom of lakes and oceans are Iways mysterious and romantic subjects for speculation with the imagin-ative. The beds of the ocean were once supposed to be paved with the gems and treasures from countless wrecks, and with all sorts of wonders unseen and unwritten. In the channels of rivers and the depths of lakes are hidden many mysteries to the dwellers on the banks. Three dry years have followed three wet ones on the Humboldt Basin, and that stream has nearly disappeared from the geography of Central Nevada. The great sink which three years ago was COVERED WITH A BODY OF WATER

20 miles long, 6 or 7 miles wide, and from 4 to 20 feet deep, has dwindled down to a dozen small ponds scattered about on the sandy bed, and a narrow strip along the eastern side. The joke of it is that places that old mountaineers said were immensely, deep, some of them unfathomable, are mere puddles or are dried up altogether. Of course the sediment has washed in and filled up some but peo-ple can only smile at themselves for ever believing such stories. An-other myth exploded is that there drained. There is no evidence of any thing of the kind. The evaporation was abundant to consume all the water that flowed into the lake.

The Power of Perspiration to Produ

A rancher with a frank and honest

face stepped into the Truckee Hotel the other day and said to O'Neal, the "I'm dead broke, and want to

\$25 on my gold watch."
"Well," said O'Neal, "where do you want to go?"

"To Reno," said the rancher, "to find work. I don't see no ranches around here," he added, in a sorrow ful tone, but with a lurking twinkle in his eye.

"Sorry I can't help you," O'Neal said. "Got no money to spare."

Cold beads of perspiration broke ont on the stranger's brow. "Good God," he murmured, "wil no one belp me." The perspiration was too much for O'Neal, and he handed out \$25.

"God bless you for your kindness," burst from the grateful rancher's lips. "I'll be back next week and take up the watch. Please don't part with it. It was my father's."

. The stranger's eyes grew misty with tears. It was evident that he had a great affection for the watch. He turned away to conceal his emotion, and, a moment later, had disappeared.
The watch proved to be brass with
a thin gold coating. The sharper was
arrested before he could leave Truckee and the money recovered. Probably the fellow goes about perspiring his way into people's confidence. He may turn up is Reno.

A company of New York Jewsowns the town of Morey, in Nye county, stroyed last winter, and huilding new sheds in places where such structures are found to be necessary. ledges, all of them patented. The camp was opened 8 years ago. but was abandoned, and laid idle 6 years. The edge is narrow, but rich. Its width join the Bishop's School for Girls is not over 18 inches, and in some places not half that, but it widens with depth. It is only opened 200 feet deep. The ore has to be dry-crushed and roasted. It averages a couple of hundred dollars a ton, and ships a bar of bullion to New York almost every week. almost every week. The expenses are very heavy, and the officers are no practical enough. There are too many of them, too. The staff is a Su dent, a General Manager, ar Assayer, a Surveyor, a Superintendent of the mill and a Foreman. There are 60 men kept at wook. The district lies 70 miles south of Eureka.

The Meeting Last Night.

The public meeting held last rening to nominate delegates for the Republican primaries was well at-tended. It was resolved that each man present be allowed to make nomman present be allowed to make bom-inations, and about eighty were thus named. ANNOUNCEMENTS.

Louis Dean is willing to serve a Sheriff for two years. Mr. Dean is well quantified. He wears a big boot; and if he ever sent it after a man he would not try to escape. Joking aside, it would be a good thing for this county to get as good a man as ones of men and wrecks of ships with | Lonis for that office. He is an old settler, and has any quantity of staunch friends.

S. A. Hamlin's card appears to day
Mr. Hamlin has done a great deal of
business in Washoe county. He is
yers energetic and enterprising man business in Washoe county. He is a very energetic and enterprising man, and would make a good Sheriff. His friends are pushing his claims vigorously, and he will be a formidable candidate before the Convention. Mr. Hamlin was a Union soldier and got several holes in his skin, and that is not going to hurt his cause. FOR CONSTABLE.

George Avery is a candidate for re-election to the office of Constable, if nominated by the Demogratic Con-vention. Avery is a born detective, a keen, alert and fearless officer, with long experience in criminal business. No better man could be nominated.

It Was OF.

Quite a laugh was raised a day or two since in a certain head telegraph office. In order to be understood it is necessary to explain that each end of every line goes into the ground, and at every office is a wire connec ing with a well, or vault, or buried deep in the ground, so that in case of a break they can connect to the ground and work that far. These ground wires often touch accidentally, and sometimes remain connected a while before it is discovered. That was the case the other day in a way office, and the head office finally suspected what the trouble was, office was called up and asked : your ground wire on?" The culprit was probably surprised to find it on, but nothing abashed, answered: "Yes, it is; and it runs into the well and all h-I won't work through it.'

REPUBLICAN PLATFORM.

Following is the text of the resolutions lopted by the Republican National Convence on on Saturday, June 5, 1889.

Republican rule has restored upon a solid asis payment in coin for all the national obgations, and has given us a currency absorbed on the logical and equal in every particular our extended country. It has lifted the latter of the nation from the point when basis payment in coin for all the national ob-ligations, and has given us a currency abso-lutely good and legal, and equal in every part of our extended country. It has lifted the streint of the nation from the point where six per cent bonds sold at 85, to that where four per cent bonds are eagerly sought at a present. Inder its administration railways have increased from \$1,000 miles in 1885 to more than \$2,000 miles in 1875. Our foreign trade has increased from \$2,000 miles in 1885 to more than \$2,000 miles in 1875. Our foreign trade has increased from \$2,000 miles in 1885, which were \$10,000,000 more than our imports in 1880, were \$25,000,000 more than our im-ports in 1870. Without resorting to loans it has, since the war closed, defrayed the ordi-nary expenses of government, besides the ac-curing interest on the public deba, and dis-bursed annually more than \$20,000,000 for the public debt, and by refunding the balance at lower rates, his reduced the annual interest charge from nearly \$151,000,000 to less than \$30,000,000 in the factories of the country have retired; labor is in demand; wager

POR TUDOR OF THE SUPREMS COURT!

WILLIAM H. BEATTY.

Resolutions adopted by the Republican State Convention:

By Solver, That the platform of principles stoped by the Mational Republican Convention, at Chicago June last, deserves and receives the approval and hearty indorsement of all the approval and hearty indorsement of all the Republican of Newida.

Republican That the hordes of Chinese that are coming in upon our shores to eat out our substance are destroying our country. Importrishing our mines, Missing and isborers, debauching our youth, and making both men and women lower in the scale of humanity. This evil must and shall be stopped, and to this end we pledge the entire strength of the Republican party.

In the language of our great leader, we regard the imalgration of Asiatics to the United states as little less than a servile invasion. Should the Commissioners now in negotiation with the Chinese Government fall to secure by the first of next January such modification of the Bullingame Treaty as will practically put an end to the infux of Chinese to this country, we demand that the treaty then be promptly annualled, and such law enacted as will relieve us at once and forever of the Asiatic scourge now menacing the well-being of the Republic.

Histolysis, That we most heartily indore the general financial policy of, the Republican party, which, in spite of every opposition on the part of the Democracy, has led to the resumption of specie payments, the raising of our national credit to a height never before known, and to the restoration of a national proaperity. But we also demand the complete restoration of silver coin to its farmer position by the side of gold: and for the benefit of the producer, the entire silver product of the country, relieving the mining industry from the loss attending the shipment to and sale of silver builton in foreign markets.

As mining for the precious metals is the leading industry of Nevada, we are inflexibly

to and sale of silver builton in foreign markets.

As mining for the precious metals is the leading industry of Nevada. We are infertibly opposed to the bill reported by the Committee on Mines and Mining, and now before the House of Representatives, prohibiting the following of fissure veins or deposits beyond the vertical lines of suriace boundaries; and we urge our Representatives to both Heuses of Congress to continue their effects for its defeat. Such a restriction would work disaster to the labors of the prospector, and seriously retard the development of the mineral riches of the West, and we cordially indorse the action of our Representative, the high. R. M. Daggett, in this bohalf.

RESOLVED, That the Republican party claims it to be the right and cuty of State and Territorial Legislatures to regulate and that it is no less the constitutional right than the positive duty of Congress to regulate the railroads.

tarims and restrict the charges of the state aliroads.

KENOLYED, That while we congratulate the country on the successful recomption of specie payments, and the sulendid financial condition of the stepachte, we are in favor of restricting the issuance of National and State legal tender notes, to denominations of not less than sys dollars, thus creating an interessed home demand, as a circulating medium, for the precious metals which our minea are annually yielding.
